However, she further added that digitalization has also proven to be a boon for the present generation. Now distances do not matter and events are organized at much cheaper cost as logistics arrangement is not a hassle. She emphasized that with all these advantages comes a lot of responsibility. One needs to be alert and wise in choosing the people they interact with, share their secrets and information with. Press Report

A motivating lecture was delivered by Dr. Neetu Verma (Associate professor, PG department of Physics, Innovation ambassador, Vice president IIC, Kanya Maha Vidyalaya, Jalandhar) to all the UG students to foster the spirit of entrepreneurship and startups in the young minds. The topic of the lecture was **design thinking**. She emphasized that there are no limits to what you can accomplish except the limits you place on your own thinking. She then quoted the example of problem solving: the encumbered VS the fresh mind and made things clear between traditional thinking and design thinking. Examples of world's leading brands such as Apple, Google and Samsung were given that adopted the design thinking approach. Ma'am further explained what design thinking means and how problem solving equals to design thinking. Many problems were solved such as installation of sink on the top of the toilet seats to curb the water scarcity problem. Introduction of cashless payments to make the transactions straightforward and to reduce the chances of fraudulent. Design thinking modes were discussed which include empathize, define, ideate, prototype and test. Design thinking helped the students to think outside the box. Dr. Verma conducted several ideas pooling sessions within the campus such as Creative Mind Teasers, Anubhooti, etc. Students developed many prototypes and under her valuable guidance, KMV students won 2nd Best Idea Prize in national event "Innovesta- A 2021". Two ideas selected for grand finale Toycathon 2021. Three innovation ideas selected for Smart India. Under ma'am s guidance, the students made a way to the national level and got recognized. Without her efforts, hardwork and dedication this would not have been possible. The lecture was quite fruitful and fostered the idea of innovation in the young minds. Principal Prof. (Dr.) Atima Sharma applauded Dr. Neetu Verma for her incredible efforts for the same.

The resource person of this workshop was Major General (Dr.) G.G Dwivedi SM, VSM, BAR. The workshop was divided into two parts.

The first module was on Idea to Ideation and second module was based on Creative Thinking – Negotiation Skills. Dr. G.G Dwivedi explained about creativity is what drives innovation and progress. He explained that a creative problem solver will find new solutions rather than simply identifying and implementing the norms. Creative thinking means looking at something in a new way, thinking out of the box to solve problem from different prospective.

He explained about creative thinking & critical thinking. He explained that creative thinking is generative, non – judgemental, expansive & possibility whereas critical thinking is analytical, judgemental, selective, probability. He explained that imagination is more important than knowledge, knowledge to all we know and understand, while imagination embraces entire world all there ever will be to know and understand. He also explained about negotiation skills that negotiation skills are a critical factor. Being an entrepreneur you must have negotiating skills. The students Shubneet and Shruti Kalia presented case studies. At the end of the students asked questions and cleared their doubts.
