Webinar on "Women and IP: Accelerating Innovation & Creativity"

Date of program: 26-04-2023

Theme of the webinar: Women & IP: Accelerating Innovation & Creativity

Objective: To celebrate World Intellectual Property Day

Summary

On World Intellectual Property Day i.e., 26th April 2023, ICAR-CPRI, Shimla organized the webinar on "Women & IP: Accelerating Innovation & Creativity" from 11:00 AM to 1:00 PM through virtual mode. Dr. Sukhwinder Singh, Scientist, ICAR-CPRI was the host for webinar. Dr. Hrajesh Singh, Director, ICAR-CPRI inaugurated the webinar with his inspirational and guiding words related to several patents and copy right protection acts in order to commercialize the technology and generate extra revenue for the institute.

The first presentation of the webinar was related to "Intellectual Property Rights" by Dr. Stapani Devi, Senior Scientist, ICAR-CPRI (RS), Jalandhar. She referred IP to be "creation of minds and described different types of Intellectual rights, such as patents (The Patents Act, 1970), Copyright (The Copyrights Act, 1957), Trademark (The Trade Marks Act, 1999), Design Act (The design Act, 2000), GI Act (The Geographical Indication of Goods (Registration and protection) Act, 1999), SICLD Act (The Integrated Circuits Layout-Design Act) and trade secrets. She also made students aware about the Indian Patent Office, which is also known as COPTDM (Controller-General of Patents, Design and Trade Marks).

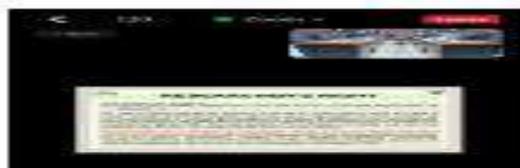

Dr. Dalarna, Scientist, CPRI-ICAR, Kufri - Fagu Unit was the second presenter and discussed the plant variety protection system in India. She talked about the enactment of Protection of Plant Varieties and Farmers' Rights Act, 2001" which is an act to provide for the establishment of an effective system for protection of plant varieties, the rights of farmers and plant breeders and to encourage the development of new varieties of plants. She also discussed various rights under this act such as Breeders rights, Researchers rights and Farmers rights. Few participants raised queries regarding application for registration of plant variation. She answered the queries by giving detailed information about the DUS test fee, Annual and Renewal fee of registration prescribed by the Authority.

The third presentation related to "Commercialization avenues after IP protection" was given by Dr. Sukhwinder Singh, Scientist, ICAR-CPRI. He talked about the Agri Business Incubation (ABI)

Centers along with ABI's purpose and history, ABI services for incubators, working of ABIs and plans related to ABIs. ABIs support operations on business projects as a measure of enhancing the foundation for new technology-based industries. He made everyone aware about the basic terminology terms related to business incubators, technology, and commercialization.

Students of BSc Bio-Technology along with all faculty members joined the webinar and acquired knowledge related to intellectual property rights.
