

7.1.4 WATER CONSERVATION FACILITIES AVAILABLE IN THE INSTITUTION:

- ❖ Rain water harvesting**
- ❖ Borewell /Open well recharge**
- ❖ Waste water recycling**
- ❖ Maintenance of water bodies and distribution system in the campus**

BORE WELL

A bore well is present in the college. A water pump has been installed in the cement hut adjacent to the bore well. The well water is used to water the green spaces on campus. It is used in the hostel bathrooms and toilets. This has greatly reduced the consumption of Municipal (potable) water for such purposes. Bore well covered with cement lid.
