

The Heritage Institution (Established 1886)

Kanya Maha Vidyalaya (Autonomous)

College with Potential for Excellence (Cycle II)

Re-Accredited A⁺ by UGC-NAAC

Star Status by DBT, Govt. of India

FIST (Phase II) Supported College

***The institution provides seed money to its teachers
for research***

Kanya Maha Vidyalaya, Jalandhar

Notice

04 May, 2020

This research proposals are invited from all the departments for the year 2020-21 under seed money grant. Interested faculty members should submit their research projects to Research Cell, IQAC not later than May 21, 2020. The Performa for the same is available at college website under research policy head. For any clarification help contact Dr. Jatinder Pal, Dean Research, Department of Economics.

Subject: Seed Money Grant for Research Projects.

With Reference to the research board meeting held on 17.05.2020, I am pleased to inform you that your project entitled, "**Structural, Optical and Thermal Studies Of Alkali Boro-Tellurite Glasses Doped With Rare Earth Element Matrix For Fiber Optics Application**" has been approved for funding. You are to incorporate all the suggestions made by experts in the meeting. The allocation of grant is Rs.80000/- for the tenure of one year till December 31, 2021. The detail of the application is given below:

Items	Estimated Expenditure
i. Books and Journals	nil
ii. Equipments, if needed	nil
iii. Field work and Travel Visit to the field for culture procurement	25000
iv. Chemicals and glassware	40000
v. Contingency (including special needs)	15000
vi. Hiring Services	nil
Total	80000

The first instalment of Rs.60000 will be released till June 2021. Your progress will be monitored in the midterm meeting and continuation of the project will depend upon its outcome.

Subject: Seed Money Grant for Research Projects.

With reference to the research board meeting held on 16.05.2020, I am pleased to inform you that your project entitled "**Assessment of Physical Activity Attitude, Eating Behaviour, Social Support and Socio-Economic Status among the Students of Kanya Maha Vidyalaya, Jalandhar**" has been approved for funding. You are to incorporate all the suggestions made by Experts in the meeting and to submit a modified proposal afresh. The allocation of grant is Rs. 30000/- for the tenure of one year December 31, 2021. The detail of the allocation is given below:

Item Estimated Expenditure

- i. Books and Journals: 15000
 - ii. Equipment, if needed: 5000
 - iii. Field Work and Travel Visit to field for culture procurement: 5000
 - iv. Chemicals and glassware: nil
 - v. Contingency (including special needs): 5000
 - vi. Hiring Services: Nil
- Total: 30000/-**

The first installment of Rs.10000 will be released till June 2021. Your progress will be monitored in the mid term meeting and continuation of the project will depend upon its outcome.

Subject: Recommendations of Research Board Meeting.

With reference to the research board meeting held on 17.05.2020, for your project entitled "**Structural, optical and thermal studies of lithium boro-tellurite glasses doped with samarium trioxide and praseodymium trioxide for fiber optics application**" the following recommendations have been made:

- Instead of pre determining names of rare earth elements i.e. samarium trioxide and praseodymium trioxide, word **rare earth element matrix** should be used. This will allow the researcher to try various other rare earth elements to suit the application.
- Experts of the meeting also found that Lithium based glasses are difficult to develop and handle. Thus instead of working only with lithium other **alkali elements** should also be used.
- Experts also suggested narrowing down the range of **applications** in optics.

Incorporate the suggested changes in project proposal and resubmit it to the Research Cell, KMV at kmvresearchcell@gmail.com.

With reference to the research board meeting held on 16.05.2020, for your project entitled "**Assessment of Physical Activity Attitude, Eating Behaviour, Social Support and Socio-Economic Status among the Students of Kanya Maha Vidyalaya, Jalandhar**" the following recommendations have been made:

- The sample size may be increase and include the Active Sports person in the total sample.
- If latest questionnaire is available in the market, that may be used.
- Books and Journals are very expensive related to this project if possible increase amount for that.
- Publications should be in quality journal (CARE List) and compulsorily endorse the name student(s) research fellows as co- author(s).

Incorporate the suggested changes in project proposal and resubmit it to the Research Cell, KMV at kmvresearchcell@gmail.com.

With reference to the research board meeting held on 18.05. 2020, for your project entitled “**Bioefficacy of Plant based compounds in controlling the insect Pest**” the following recommendations have been made:

- The title should reflect the objectives of the proposal. Specifically, insects and plant derivatives should be specified.
- Objectives have to be rationalized and brought down given the time and resources to complete the project.
- Clearly state the novelty and relevance of the project.
- Address the significance of insect culture room and BOD incubators.

Incorporate the suggested changes in project proposal and resubmit it to the Research Cell, KMV at kmvresearchcell@gmail.com.

With reference to the research board meeting held on 18.05.2020, for your project entitled **"Evaluation of Plastic Pollution in Fresh Water Ecosystems."** the following recommendations have been made:

- Rather than just an overview of the conditions of two rivers, the project should also relate to biology taking into account the organisms in rivers.
- A scientifically structured questionnaire should be used to collect a sample of 100-200 respondents living in the vicinity of water ways.

Incorporate the suggested changes in project proposal and resubmit it to the Research Cell, KMV at kmvresearchcell@gmail.com.

With reference to the research board meeting held on 30.05.2020, for your project entitled **"Investigating the blood glucose and cholesterol levels in adolescent population and correlating with dietary habits and exercise"** the following recommendations have been made:

- The main point of discussion was the sample collection. The expert Dr. A. K. Jana suggested to keep the sample size low.
- The research work should be carried out on individual basis so that accurate observations can be recorded for every limiting scientific factor including advised diet and physical activities.
- Keeping the above points in mind during the research work, the Principal Investigator will be able to deduce precise results. This will help in revealing the kind of lifestyle to be followed for better health management.

Incorporate the suggested changes in project proposal and resubmit it to the Research Cell, KMOV at kmvresearchcell@gmail.com.
