

#### **7.1.4 WATER CONSERVATION FACILITIES AVAILABLE IN THE INSTITUTION:**

- ❖ Rain water harvesting**
- ❖ Borewell /Open well recharge**
- ❖ Waste water recycling**
- ❖ Maintenance of water bodies and distribution system in the campus**

# WASTE WATER RECYCLING

Filtration plant has been setup in the college campus to purify the water used in swimming pool. Use advanced filtration system that can efficiently remove impurities, debris and contaminants from the water. High quality sand, cartridge, or diatomaceous earth filters can be effective in maintaining water quality.
