

Action Taken Report

2022-23

Action Taken Report on Teachers' Feedback on Curriculum

Feedback (22-23)	Action Taken (23-24)
Research methodology should be made part of the curriculum for science students	Research Methodology has been made part of B.Sc. as well as M.Sc. curriculum (both medical and Non medical streams)
The curriculum should be more market/industry-oriented and practical	Practical classes/workshops are organized for the students in association with industry partners for vocational and IT programs
More Opportunities for internships must be provided.	Industrial Internships / Trainings are planned for the students in collaboration with Industry Partners Students are guided and mentored to participate in inter-institutional seminars, conferences, and hackathons.
Training and Hands-on practice must be enhanced.	Papers on Tally Prime and Workshop for Life Skills have been introduced for B.Com Sem 1. Lab manuals have been developed by the computer department for the students to practice more and more.
Activities should be decided beforehand so that the syllabus and activities can go side by side	Activities are planned beforehand annually
