**CURIE & FIST Grant (Phase II) Awarded by DST**

**Ques: 2.3.4. Preparation and adherence to Academic Calendar and Teaching Plans by the institution: Academic Calendar and Teaching Plans during the year (2022-23)**

## ***Preparation and adherence to Academic Calendar and Teaching Plans by the institution:***

The academic calendar serves as a roadmap, describing the schedule of activities, including Admission Schedule, commencement of classes, conduct of class performance components, examination duration of MST, ESE and respective retests, vacations. A thorough planning is required to ensure that all components align coherently, allowing for a seamless flow of the academic year. KMV, a prestigious women's college goes above and beyond to ensure a well-structured and planned academic year. Hence, Preparation and adherence to the academic calendar is an annual practice of the college to promote effective time management and the holistic development of students. During the preparation of the calendar regional and national holidays are taken into account to ensure that the students have a balanced and enriching experience throughout the year. The tentative academic calendar is then approved in the Academic Council meeting and uploaded on the college website. To check the adherence to the timeline, CoE office circulates notices from time to time in the faculty.

Equally important is the formulation of comprehensive teaching plans and thus are planned with utmost care. These plans outline the syllabus, course objectives, and the month-wise planning for completing the syllabus contents. A copy of the same signed by the concerned teacher and HoD is submitted in the college library. This practice allows the faculty members to allocate sufficient time to each topic, incorporate interactive learning activities, and plan assessments effectively.

In addition to its exemplary efforts in preparation, adherence and well-structured teaching plans KMV goes the extra mile by calculating the total teaching days and working days at the end of each session and hence establishes a realistic and achievable timeline for course delivery and assessment. The final academic calendar is uploaded on the college website at the end of the session.
