Initiatives taken by the institution to make the campus eco-friendly

Initiatives for Greening the Campus

Introduction

In KMV the concept of green campus has been widely applied and initiative for greening the campus includes environmental management through 3R (reduce, reuse, and recycle). The green campus is an overall activity in environmental management in order to create a sustainable campus and an extent to which students, staff members and campus residents can utilize the resources available in the campus environment effectively and efficiently.

Initiatives for Greening the campus

KMV is proactively engaged in environmental management in order to create a sustainable campus. Some indicators of the creation of a green campus are campus management policies oriented to environmental management, including efforts to save water, paper, and electricity, greening to achieve the ideal proportion of green open space, and the availability of campus waste management with the 3R principle. The concept of green campus is designed to support sustainable development in the institutions.

Restricted entry of automobiles

- KMV has implemented green-friendly practices, the automobiles entry into the campus is restricted and the sign boards are placed at the prominent places. Our College provides bus facility to students and staff . It is ensured that all vehicles are parked at parking area near college entrance. No vehicle is allowed to enter into the campus.

Use of bicycles/ Battery-powered vehicles

- Students and staff coming from nearby villages also prefer bicycle as a mode of transport for attending the college . It is environment friendly and prevents pollution.

Pedestrian-friendly pathways

- Vehicle parking space is provided at the main entrance of the college campus. As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways. The internal roads are lined with trees and LED lights and they are properly maintained by the campus maintenance committee.

Ban on use of plastic

- Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles .

Landscaping

- Landscaping of the college is worth seeing and reflects aesthetic sense. The institute has a very old banyan trees. Utmost care is taken to develop and maintain green landscaping by trained gardeners and supervisor. The construction, maintenance and beautification committee constituted in the institution looks after the development and maintenance of the greenery in the campus.

Management of Degradable and Non-Degradable Waste

Introduction

KMV is committed to the cause of environment and it is not only a moral concern but an issue of social justice also. KMV has adopted healthy environmental practices and has taken concrete steps in implementation of effective waste management practices such as segregation, recycling, and composting. Our house keeping staff, gardeners and sweepers help in segregation of waste.

Solid Waste Management

- Solid waste is generated by all sorts of routine activities carried out in the college that includes paper, plastic, glass, metals food etc. Solid waste management system in campus includes segregation, composting, Incineration and disposal with help of M.C.J.
- There are about 100 dustbins have been installed all over campus for waste segregation.
- Electronic Incinerator are installed in all girls washroom for hygienically disposal of sanitary napkins.
- Waste like plastic, metals, glass, cardboard, newspaper and stationery are systematically.

Collected, segregated and sold to authorize vendors for its recycling .

- College adopts almost paperless concept by digitization of office procedures through Electronic means via What Sapp, email and Google classroom; thus, reducing paper-

based waste and reduce carbon dioxide emissions. Use of paper printed on one side is encouraged in sending fax, print drafts before final document, meeting minutes, memos and notes in office practices as environmentally preferred alternative to waste management to reduce pollution.

- The institution focuses on minimum usage of paper and encourages the practice of paper less notes on smart phone/ note pad, correspondences by email, WhatsApp , Filing& documentation stored in Google drive.
- Rest of the waste is segregated at source and collected by Safai Karmachari to dispose off properly to the dumping yards of Municipal Corporation, Jalandhar

Liquid Waste Management

- Chemical waste from chemistry and other science labs are installed with proper chemical disposing unit in form of specialized drums for collecting acid etc. and this is further disposed off to chemical disposing unit in a nearby city .

Bio- Medical Waste

- There is zero medical waste in the campus.

Waste Recycling System

- Biodegradable horticultural waste such as dried leaves, twigs, and plant clippings is collected from all around the campus and used for vermicomposting
- Biodegradable kitchen waste from hostel mess and canteen is disposed off in honeycomb composting pits water soluble nutrients and is used in organic farming by agriculture dept.
- Waste food and leftover of mess and canteen and college mess is given to nearby Gaushala for feeding the cows.

E- Waste Management

- The College has come up with several ideas to utilize e-waste by converting it into some art objects while non-useable E- waste is disposed through government licensed vendors.

Hazardous chemical and radioactive Waste Management

- In the Institution there is nil use of hazardous chemical and radioactive material. Most of the departments do not generate hazardous waste.

Future Plans of Actions for Next Academic Year:

Plan of Action

New courses and Teaching Learning

1. To introduce skill based elective courses in BA.
2. Internship embedded syllabi as per UGC directives
3. Introduce audit course on Innovation, Entrepreneurship & job readiness catering to students' placement.
4. To add new Diploma and certificate programmes from session 2021-22.
5. To organise online/offline workshops and extension lectures.
6. To arrange industrial training for students.
7. To organise intra college and inter-college competitions, exhibitions.
8. Teachers will be encouraged to develop online teaching modules.
9. Students will be encouraged to use national level online teaching resources.

To inculcate scientific temperament amongst students

1. To organise scientific quiz, competitions, experimental workshops and other scientific activities.
2. To arrange various activities to popularise science.

Research, Extension and Consultancy

1. Research mentoring committee will be executed with external peer members to check progress of already sanctioned projects.
2. Proposals will be invited for fresh sanction of projects under seed money.
3. Organize research forum
4. Submit project proposal for research grant
5. Various activities will be undertaken under Institution Innovation Cell (IIC).
6. Students will be encouraged to undertake various Startups and entrepreneurship.
7. Faculty will be inspired to present papers in national and international seminars and conferences.
8. Faculty will be encouraged to publish papers in reputed Journals and to supervise more Ph.Ds.

Global Endeavours

1. To organise workshops and lecture series with foreign Universities as part of MOU.
2. Teachers will be encouraged to attend on-line courses from top international universities.

Infrastructure Development

1. To establish labs for hotel management and artificial intelligence programmes
2. To purchase more books and Journals for library.
3. To strengthen digitalisation of books in library for online reference.
4. To upgrade existing labs and class rooms.

Governance and Leadership

1. To organise FDPs to improve professional competency of faculty and quality enhancement.
2. To enhance quality initiatives.
3. To encourage teachers to attend FDPs from other reputed institutions too.
4. To organise industry-Academia meet and FDP on research methodology.
5. To apply for national level ranking

Student Support Activities

1. To strengthen mentoring and other student support services and to take feed back of students.
2. To strengthen the collaborations with industry for training and placements and to organise placement drives and career orientation programmes
3. To enhance the concessions for needy and deserving students
4. To encourage the student participation in various inter-college sports and cultural competitions for their holistic growth
5. To organise Yoga classes, Self – defence and other such training programmes.
6. To organise alumni meet.

Social Responsibility

1. To mentor other institutions for setting up of skill development centres.
2. To encourage the students to participate in various social extension activities.
3. To participate in all Government initiatives for the society.
4. To keep spreading awareness through Radio 'VOW' (voice of women).
5. To carry out activities for uplifting under privileged section of society.
6. To take environment friendly initiatives.
7. To enhance value-based activities to make students more responsible citizens and good human beings.
