INITIATIVES FOR GREENING THE CAMPUS

Introduction

In KMV the concept of green campus has been widely applied and initiative for greening the campus includes environmental management through 3R (reduce, reuse, and recycle). The green campus is an overall activity in environmental management in order to create a sustainable campus and an extent to which students, staff members and campus residents can utilize the resources available in the campus environment effectively and efficiently.

7.1.5. Initiatives for Greening the campus

KMV is proactively engaged in environmental management in order to create a sustainable campus. Some indicators of the creation of a green campus are campus management policies oriented to environmental management, including efforts to save water, paper, and electricity, greening to achieve the ideal proportion of green open space, and the availability of campus waste management with the 3R principle. The concept of green campus is designed to support sustainable development in the institutions.

7.1.5.1 Restricted entry of automobiles

- KMV has implemented green-friendly practices, the automobiles entry into the campus is restricted and the sign boards are placed at the prominent places. Our College provides bus facility to students and staff . It is ensured that all vehicles are parked at parking area near college entrance. No vehicle is allowed to enter into the campus.

7.1.5.2 Use of bicycles/ Battery-powered vehicles

- Students and staff coming from nearby villages also prefer bicycle as a mode of transport for attending the college . It is environment friendly and prevents pollution.

7.1.5.3 Pedestrian-friendly pathways

- Vehicle parking space is provided at the main entrance of the college campus. As the campus is vehicle free with some exceptions, students and staff experience comfort walking through the pedestrian friendly pathways. The internal roads are lined with trees and LED lights and they are properly maintained by the campus maintenance committee.

7.1.5.4 Ban on use of plastic

- Single-use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among staff and students through orientation in the premises. To restrict the use of plastic, measures have been taken to replace plastic tea cups and glasses with steel glasses in the canteen. The staff and students are informed to use steel or copper water bottles instead of plastic bottles .

7.1.5.5 Landscaping

- Landscaping of the college is worth seeing and reflects aesthetic sense. The institute

has a very old banyan trees. Utmost care istaken to develop and maintain green landscaping by trained gardeners and supervisor. The construction, maintenance and beautification committee constituted in the institution looks after the development and maintenance of the greenery in the campus.
