The Principal

Kanya Maha Vidyalaya,

Jalandhar.

Subject: Request to organize workshop on Genetic Counseling - its clinical and diagnostic aspects on 24-02-2023.

Respected madam,

This is to bring to your kind notice that Department of Bio-Technology is willing to organize a workshop entitled 'Genetic Counseling - its clinical and Diagnostic aspects on 24-02-2023 at 12:00. The Resource person for the event will be Ms. Deepthi Chaudhary, Senior Genetic Counselor, Lifecell International (North Zone). Kindly allow us to organize the above mentioned workshop. Please sanction the Travelling allowance and Honorarium for the resource person; and amount for the planter. Kindly instruct the mess incharge to prepare lunch for two persons on the same day.

Thanking you.

Yours sincerely,

(MRS. NARGEET)

Assistant Professor,

Department of Bio-Technology,

Kanya Maha Vidyalaya, Jalandhar.

Press-Note

WORKSHOP ON GENETIC COUNSELING --- IT'S CLINICAL AND DIAGNOSTIC ASPECTS

1. **Date of program:** 24-02-2023
2. **Title/Theme of the Program:** To celebrate International Science Day, 2023, a workshop on genetic counseling, its clinical and diagnostic aspects was organized.
3. **Program for the benefit:** Through this activity, students enhanced their knowledge about different aspects that are related to genetic counseling, its importance in current era, and global demands of genetic counselors.
4. **Objective:** This student growth and development oriented activity was intended to improve their cognitive intellectual skills and knowledge genetic counseling, need of genetic counseling ,and present and future career opportunities in this field, and different multidisciplinary areas of science that are not only emerging with genetic counseling but are deeply involved in it.
5. **Total no. of participants:** 60
6. **Venue of the program:** Department of Bio-Technology, Kanya Maha Vidyalaya, Jalandhar.

Summary:

A workshop on genetic counseling, and its clinical and diagnostic aspects, delivered by Ms. Deepti Chaudhary, Genetic Counselor, Life Cell International Ltd., North Zone, India was organized by Department of Biotechnology for students to enhance their knowledge about different aspects related to genetic counseling, its importance in current era, and global demands of genetic counselors. This student growth and development oriented activity was intended to improve their cognitive intellectual skills and knowledge on genetic counseling, need of genetic counseling ,and present and future career opportunities in this field, and different multidisciplinary areas of science that are not only emerging with genetic counseling, but are deeply involved in it.

Before the start of the event, the resource person Ms. Deepti Chaudhary was felicitated by the honorable Prof. Dr. Atima Sharma Dwivedi, Principal, Kanya Maha Vidyalaya, Jalandhar, along with Mrs. Sadhna Tandoon, Dean, Life Sciences and Mrs. Naveet, Assistant Professor and Head, Department of Bio-Technology, Kanya Maha Vidyalaya, Jalandhar. Students from various departments of life sciences, along with distinct faculty members: Dr. Sandeep Kaur Saggu, Ms. Latika, Ms. Princy, and Mr. Suraj Agnish, actively participated in this workshop.

In this workshop, MS. Deepti Chaudhary started with elaboration of human cell, nucleus, chromosome and DNA, then a deep illustration on genetic disorders, autosomal recessive, autosomal dominant disorders, epigenetic and gene pool studies in different Indian communities. The workshop was highly interactive, from the start till the end, and students were continuously asking the queries to the resource person as she was displaying and explaining case studies, her experiences in this field, and different medico-legal ethics involved in genetic counseling. Also, role of a genetic counselor, dealing with patients, and importantly, and need of remaining sympathetic in this profession was explained by her in an elaborative manner. Students were showing deep enthusiasm and were logically thinking before asking any query question and interacting with the guest speaker throughout the workshop.

larged

The workshop lasted for more than two hours, and at the end of the event, three students from Department of Bio-Technology performed at 20-minute-long role-play info-entertainment activity that was meant to summarize the content of complete genetic counseling workshop in an easily understandable manner.

Prof. Dr. Atima Sharma Dwivedi, Principal, Kanya Maha Vidyalaya, Jalandhar appreciated all the students for their enthusiastic participation; she also appreciated the innovative and holistic student's cognitive learning and skill development programs organized by the Department of Bio-Technology, from time to time. She reckons that this workshop was not only an intellectual skill development activity, but was also a student's overall growth centric developmental activity.

Workshop on Intellectual Property Rights (IPRs) and IP management for start up

1. Date of program: 27.05.2023
2. Title/Theme of the Program: Workshop on Intellectual Property Rights (IPRs) and IP management for start up
3. Program for the benefit: Students learnt about the importance of intellectual property rights
4. Objective: To create awareness amongst students about the importance of patents and intellectual property rights
5. Total no. of participants: 54 (Including 02 faculty members)
6. Venue of the program: offline Mode: Department of Bio-Technology, Kanya Maha Vidyalaya, Jalandhar.

Summary:

The department of Bio-Technology organized a workshop on 'Intellectual Property Rights (IPRs) and IP management for start up' on 27 May, 2023 in Department of Bio-Technology, Kanya Maha Vidyalaya, Jalandhar. The workshop was organized with an objective to create awareness amongst students about the importance of Intellectual Property Rights. Dr. Sandeep Kaur Saggu, Assistant Professor, Department of Bio-Technology addressed the students. She introduced the students with the different forms of Intellectual Property Rights such as patents, copyright, trademark, geographical indication, and trade secret along with the validity, judicial laws available and the limitations of each right. She further explained the patent system of India and various patent offices in India. She also discussed about the use of intellectual property laws in case of injustice and the legal options available in Indian judicial system. The students learnt that the main purpose of intellectual property law is to encourage the creation of a wide variety of intellectual goods. To achieve this, the law gives people and businesses property rights to the information and intellectual goods they create, usually for a limited period. This gives economic incentive for their creation, because it allows people to benefit from the information and intellectual goods they create, and allows them to protect their ideas and prevent copying. These economic incentives are expected to stimulate innovation and contribute to the technological progress of countries, which depends on the extent of protection granted to innovators. Mrs. Navgeet, Head, Department of Bio-Technology also motivated the students to learn more about intellectual property rights. Prof. Dr. Atima Sharma Dwivedi, Principal, Kanya Maha Vidyalaya, Jalandhar encouraged students to participate more in such activities.
