Kanya Mahavidyalaya,  
Mumbai

Subject: Request to organize educational excursion  
trip to CSIR-IHBT, Palampur.

Respected Madam,

This is to bring to your kind notice that  
Department of Bio-Technology and PG Department of Botany  
are organizing an 'Educational cum Excursion Trip' to  
CSIR-IHBT, Palampur for two days that is on 04-11-2022  
and 05-11-2022 collaboratively. There will be 40 students  
five faculty members and one lab attendant will  
accompany them. Kindly permit us for the above mentioned

Thanking you.

Yours sincerely,

Margaret

(MARGARET)

List of faculty members

1. Mrs. Margaret (Bio-Technology)
2. Dr. Chandan Kumar (Botany)
3. Dr. Chandan Singh (Botany)
4. Mr. Vinay Khanna (Bio-Technology)
5. Mr. Vinay (Bio-Technology)
6. Mr. Vinay

**PG Department of Botany**

**Report: Educational cum Excursion Trip to Palampur**

**Event: Educational cum Excursion visit**

**Venue: CSIR- Institute of Himalayan Bioresource and Technology, Palampur, HP**

**Date: 04-11-2022 to 05-11-2022**

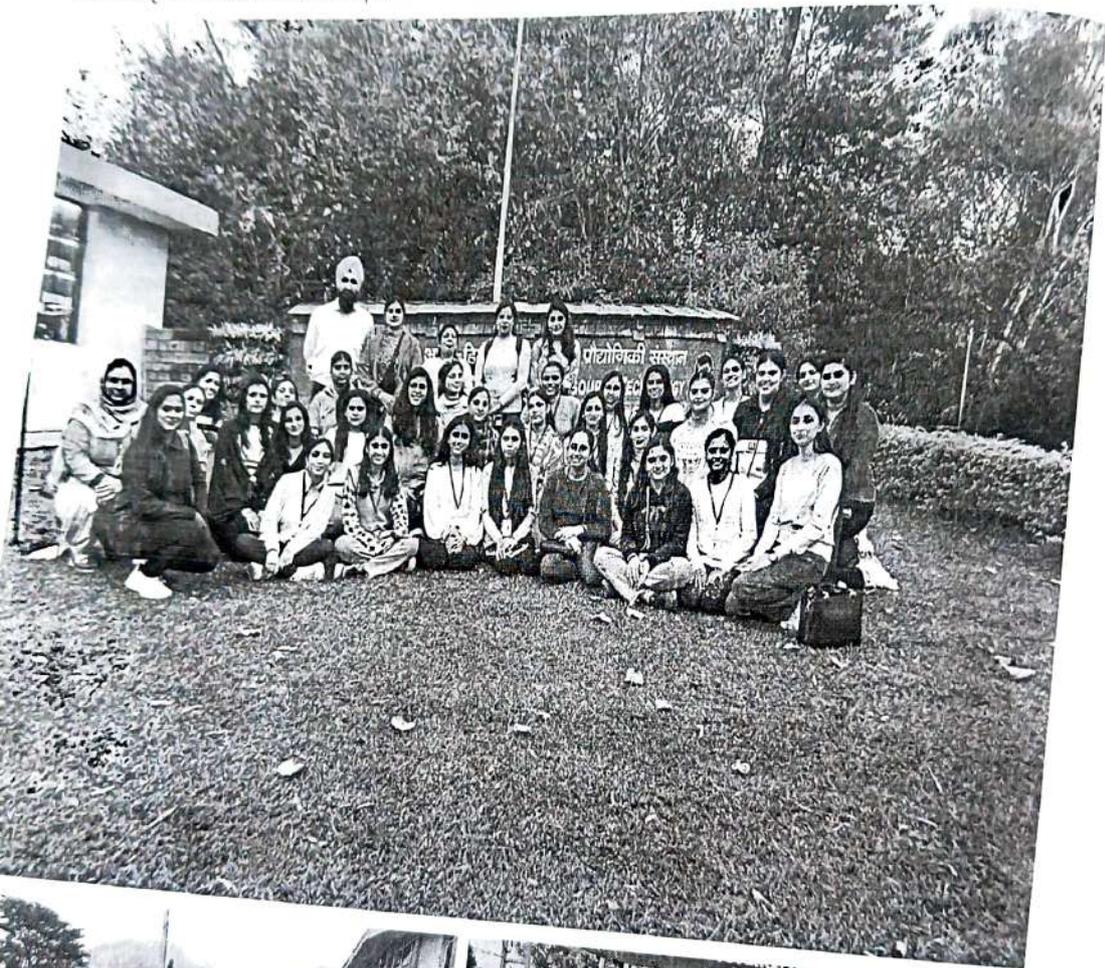

**No. of Students: 31**

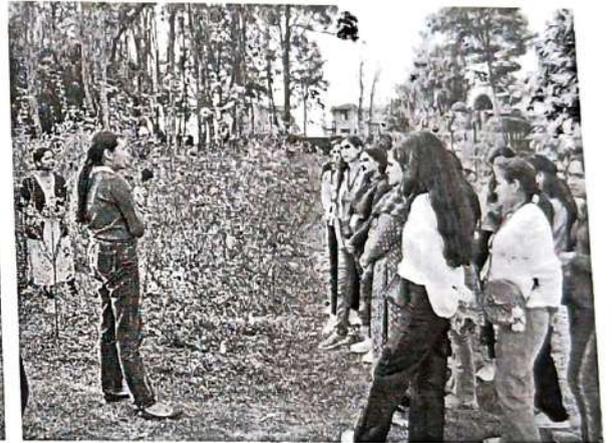

**No. of Faculty: 05**

PG Department of Botany organized an 'Educational-cum-excursion trip' to Palampur in collaboration with Department of Bio-technology. On 4<sup>th</sup> of November, students visited CSIR-Institute of Himalayan Bioresource and Technology, Palampur. Dr. Vandana Jaiswal, Scientist, Molecular Fingerprinting and QTL mapping and Mr. Sahil, a scholar accompanied the students and gave a detailed tour of the institute during the whole visit. Students visited Bamboo house where they learnt about different products of the institute including essential oils from Rose, Lavender, Cedar oil, Tea wine, herbal and black tea along with different edible products including protein mix as well as others uses like bamboo charcoal, cow dung paper, bamboo fibers, bamboo artifacts, different stevia products, different pocket perfumes, tea based mouthwashes, natural hair oil etc. After that, students visited remote sensing labs where they were made aware about how the problems of remote areas can be detected and solved with the help of satellites and drones. Next, they moved towards the herbariums at the institution where local flora is preserved. They also visited various polyhouses and research fields where different varieties of Hing, Rose, Saffron were grown. The scientists explained epigenetics in detail which actually regulates the expression of characteristics in plants. Then they visited molecular biology laboratory where they were studying the effect of different environmental factors on growth of plants specially in cases of seasonal plants. Lastly, they went to Plant tissue culture lab where they introduced students to Monk plant, Saffron, Hing, different species of Bamboo, jatamansi etc. Dr. Rishab Joshi explained the importance of Plant tissue culture for conservation of endangered species like Jatamansi.

On day two of trip, students went to various areas in Palampur for collection of local flora. They collected different plant species belonging to bryophytes, pteridophytes, and flowering plants. They also interacted with the local residents and enquired about native flora of the region. They also learned about the local use of different plant species. In the afternoon, students moved to Dhauladhar Zoo, Gopalpur, Nature Park. On the way to nature park, students collected more plant species for their herbarium collection. On reaching Dhauladar Zoo, Nature Park, they saw different animals including Black Bear, Asiatic Lion, Leopard Gorals, Bhutan Grey Peacocks, Cheer Pheasants, barking Deer, Sambar, Leopard Cat and many more. On the way back students visited many tea gardens.

The students were accompanied by Mrs. Navgeet, Assistant professor and Head Department of Biotechnology, Dr. Sandeep Kaur, PG Department of Botany, Dr. Sandeep Singh, PG Department of Botany, Ms. Latika Khosla, Department of Biotechnology and Ms. Princy, Department of Biotechnology. Students enjoyed a lot and acquired scientific temperament and knowledge from this visit. Prof. Dr. Atima Sharma Dwivedi, Principal, Kanya Maha Vidyalaya, Jalandhar appreciated the faculty members for organizing such knowledge filled educational trips.

**Date: 29-01-2023**  
**No. of Students: 25**  
**No. of Faculty: 03**

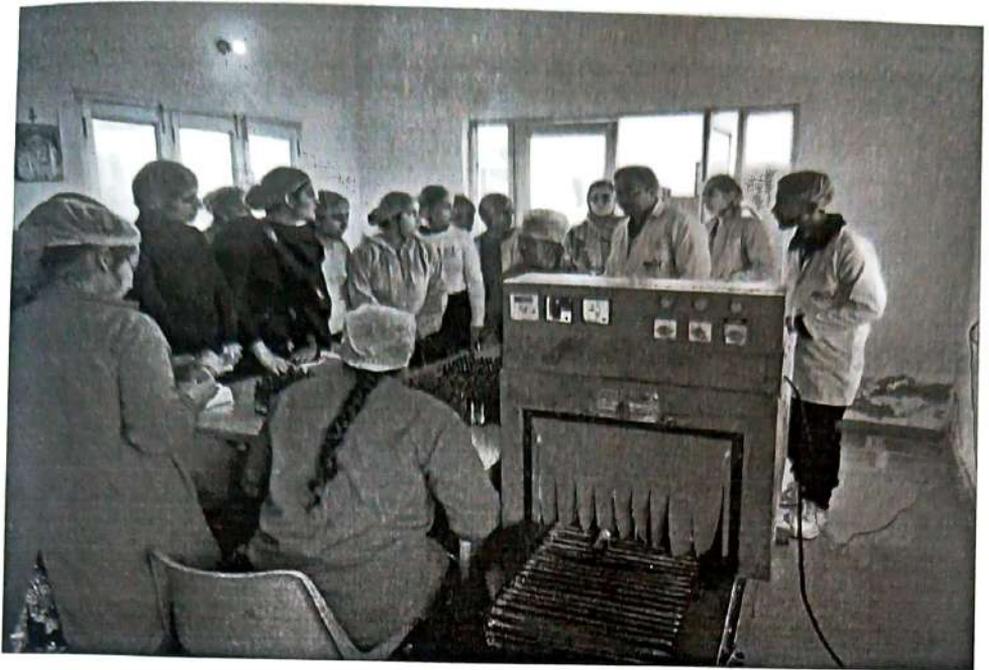

The P.G. Department of Botany in coordination with Kanya Maha Vidyalaya-Institution's Innovation Council organized an 'Educational visit' to **Pukhraj Organics**. On **28 of January**, students visited **Pukhraj Organic India Pvt Ltd Partapura Jalandhar** where they learnt about different products of the industry and the preparation of various herbal product like natural immunity booster, health, skin care, wellness care products, energy tonics and many other cosmetics from plant raw extracts. Mr. Deepanshu accompanied the students and gave a detailed tour of the industry during the whole visit. The Students first visited their research and development lab which is well equipped with instruments like pH meter, flame photometer, laminar air flow, BOD etc. where they maintain the standard of their existing products. Next, they moved towards main working area equipped with latest techniques machinery that is used in manufacturing of organic products. Main unit include accumulation of raw material aloe-vera the main ingredient of their products, contamination control chamber and ointment manufacturing plant then he explains the working principle and process in making of organic products. He took around students from one section to another. The next unit was packaging unit equipped with automatic packing machines, sealing machine, heat sealer, capping machine and filling machine.

The students were accompanied by three faculty members Mrs. Shikha Vashisht, Dr. Sandeep Kaur and Ms. Nisha from Botany department. Students enjoyed a lot and acquired scientific temperament and knowledge from this visit. Prof. Dr. Atima Sharma Dwivedi, Principal, Kanya Maha Vidyalaya, Jalandhar appreciated the faculty members for organizing such knowledge filled educational visit for the students which give them exposure to different techniques used in manufacturing of herbal formulations.

# केएमवी की छात्राओं की एजुकेशनल विजिट

जालंधर | केएमवी के पोस्टग्रेजुएट डिपार्टमेंट ऑफ बॉटनी ने केएमवी इंस्टीट्यूशन इनोवेशन काउंसिल के साथ मिलकर एजुकेशनल विजिट का आयोजन किया। वर्कशॉप के दौरान दीपांशु ने छात्राओं को नेचुरल इम्युनिटी बूस्टर, हेल्थ, स्किन केयर, वैलनेस केयर, एनर्जी टॉनिक आदि के बारे में जानकारी दी। छात्राओं ने रिसर्च एंड डेवलपमेंट लैब का दौरा करते हुए पीएच मीटर, फ्लेम फोटोमीटर, लैमिनार एयर फ्लो, बीओडी आदि उपकरणों के बारे में जानकारी हासिल करने के साथ-साथ उत्पादन प्रक्रिया में उपयोग की जाने वाली अत्याधुनिक मशीनरी के बारे में भी जानकारी हासिल की। साथ ही पैकेजिंग यूनिट में जाकर

एजुकेशनल विजिट में हिस्सा लेती छात्राएं ।

छात्राओं ने ऑटोमेटिक पैकिंग मशीन, सीलिंग मशीन, हॉट सीलर, कैपिंग मशीन व फिलिंग मशीन की कार्यप्रणाली को समझा और विभिन्न सवालियों के जवाब भी दीपांशु से बेहद सरल ढंग से प्राप्त

किए। प्रिंसिपल प्रो. अतिमा शर्मा द्विवेदी ने इस सफल आयोजन के लिए बॉटनी विभाग की सराहना की। यहां शिखा विशिष्ट, डॉ. संदीप, मैडम निशा व समूह अध्यापक भी मौजूद रहे।

## KANYA MAHA VIDYALAYA JALANDHAR (Autonomous)

P.G. Department of Botany

1. Date of program: 28<sup>th</sup> February 2023
2. Title/Theme of the Program: Educational Visit to "Central Potato Research Station, Jalandhar" to celebrate National Science Day.
3. Program for the benefit of: Students of B.Sc. (Medical) and M.Sc. Botany
4. Total no. of participants: 33
5. Venue of the program: Central Potato Research Station, Jalandhar

National Science Day is celebrated in India on February 28<sup>th</sup> every year to mark the discovery of the Raman Effect by Indian Physicist Sir C.V. Raman. It is a day to promote science education and encourage scientific temper in the country. P.G. Department of Botany of Kanya Maha Vidyalaya, Jalandhar organized a visit to Central Potato Research Station, Jalandhar to celebrate National Science Day. A visit to a potato research station was a great way to celebrate National Science Day, as potatoes are an important crop in India and play a significant role in the country's food security. The primary purpose of the visit was to acquaint students with cutting-edge innovations, prototype development, and the diverse areas of ICAR. Additionally, the visit aimed to provide guidance on the vast domain of potato research, opening up opportunities for students to explore and learn.

First resource person of the event was Mr. Yogesh Gupta (Asst. Chief technical officer). He gave overview of CPRS and the scientists working in the field of potatoes research and processing. He motivate students to try their hand in entrepreneurship in potato field and importance of value addition in potato products.

During the event, Dr. Arvind Jaiswal, a Food Technologist from CPRS in Jalandhar, served as the second resource person. He gave a presentation on the development of potato products, their patents, and technology transfer for commercialization. Dr. Jaiswal showcased a variety of innovative products made from potatoes and discussed their health benefits, particularly for patients with Celiac disease who require a gluten-free diet. Traditionally, potatoes are consumed as fries or chips, but Dr. Jaiswal's inventive approach involved developing new products such as potato cookis, anthocyanin-rich potato porridge, potato-ragi and corn cake, potato jalebi, gulab jamun, ice cream, and muffins.

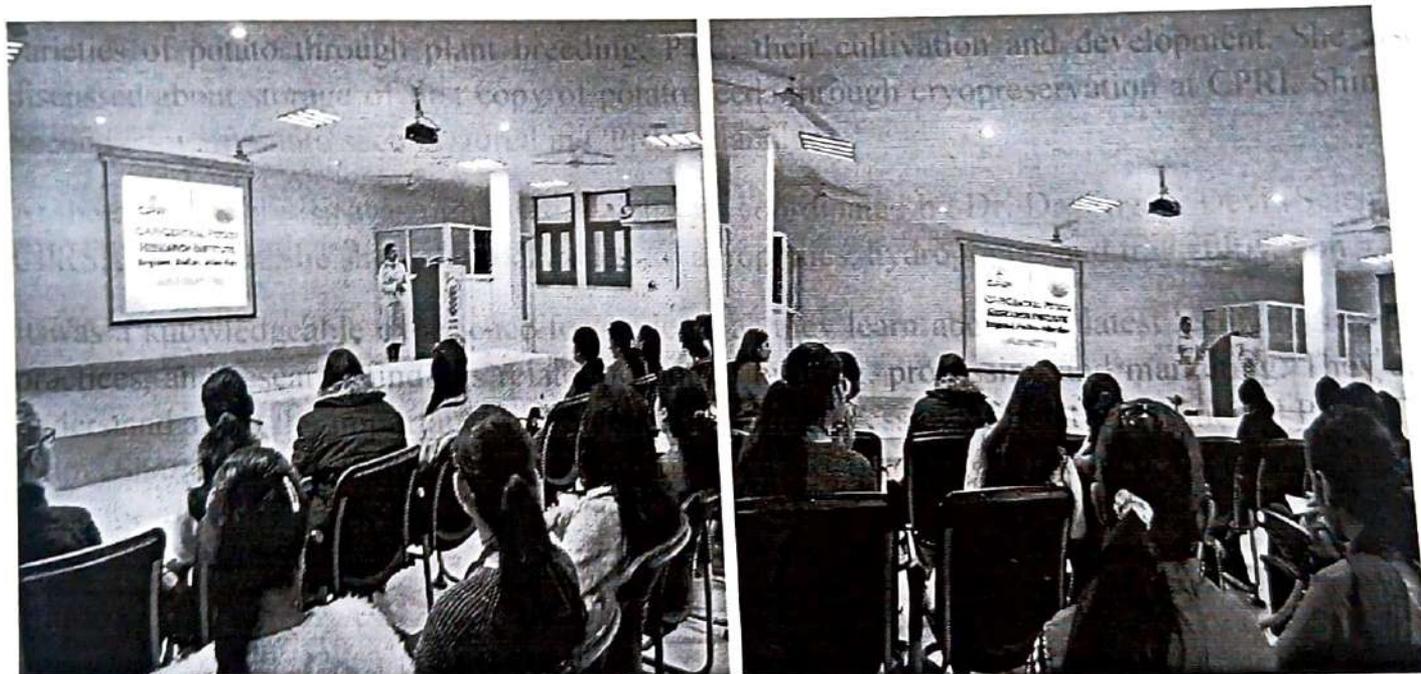

Third resource person for the session was Dr. Sugani Devi (Scientist) CPRS, Jalandhar. She is working on hi-tech potato seed production like Aeroponics, minitubers, soilless culture and seed production under net house. She is a true example of women education, awareness and empowerment.

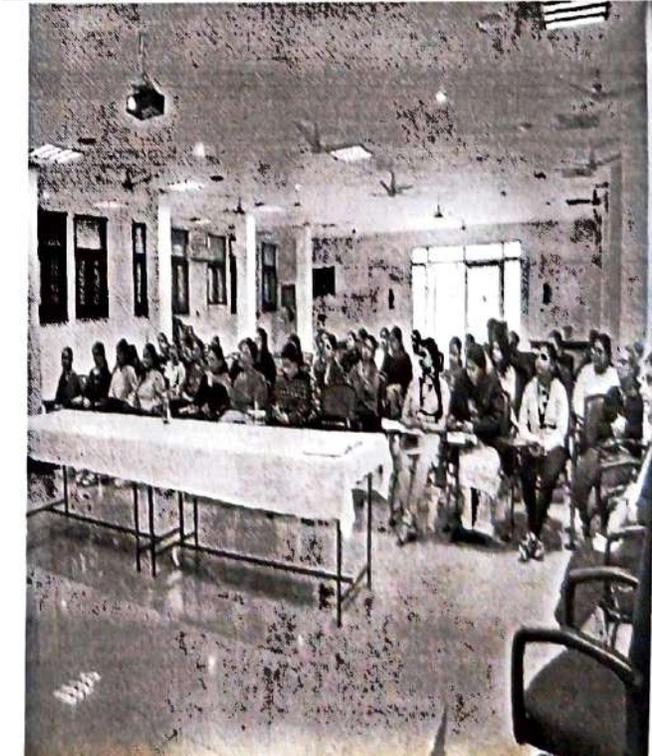

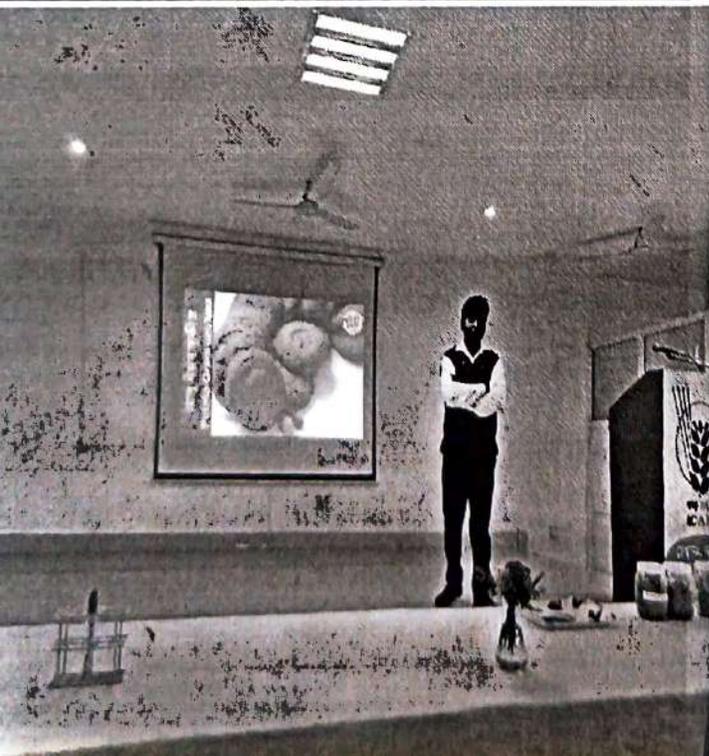

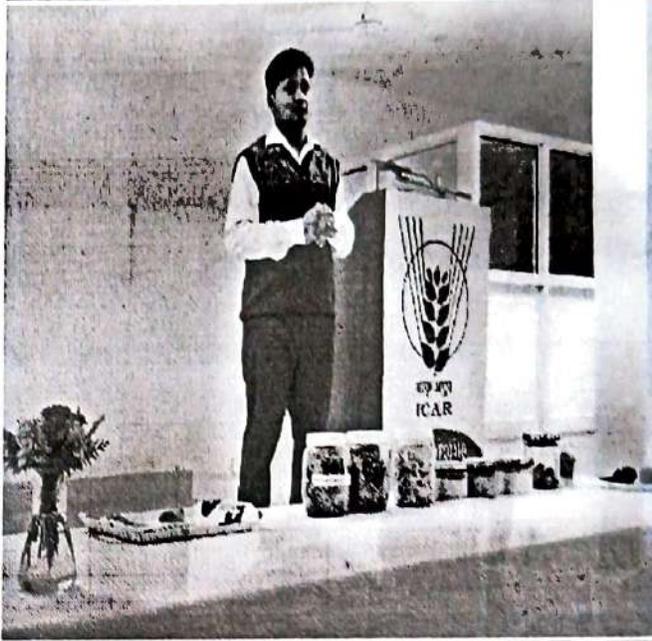

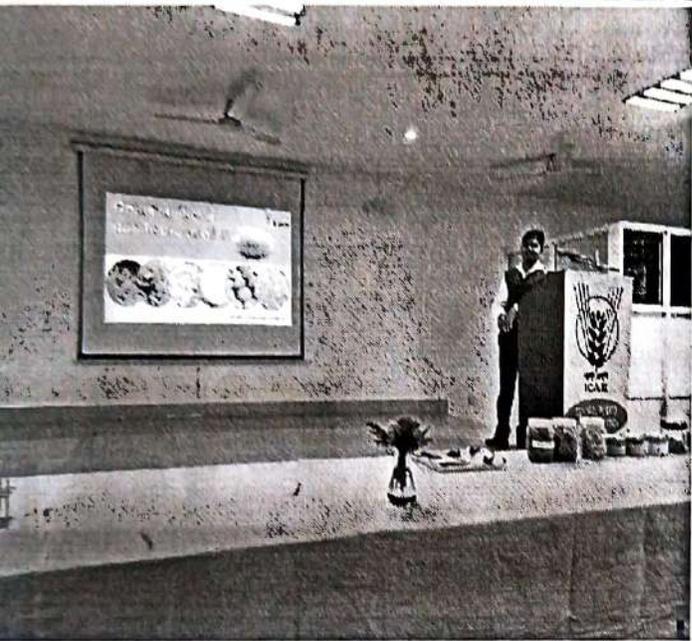

Fourth resource person for the event was Dr. Ratna Preet Kaur (Scientist) CPRS, Jalandhar. Her field of specialty is Genetics and plant breeding. Her talk focused on development of different

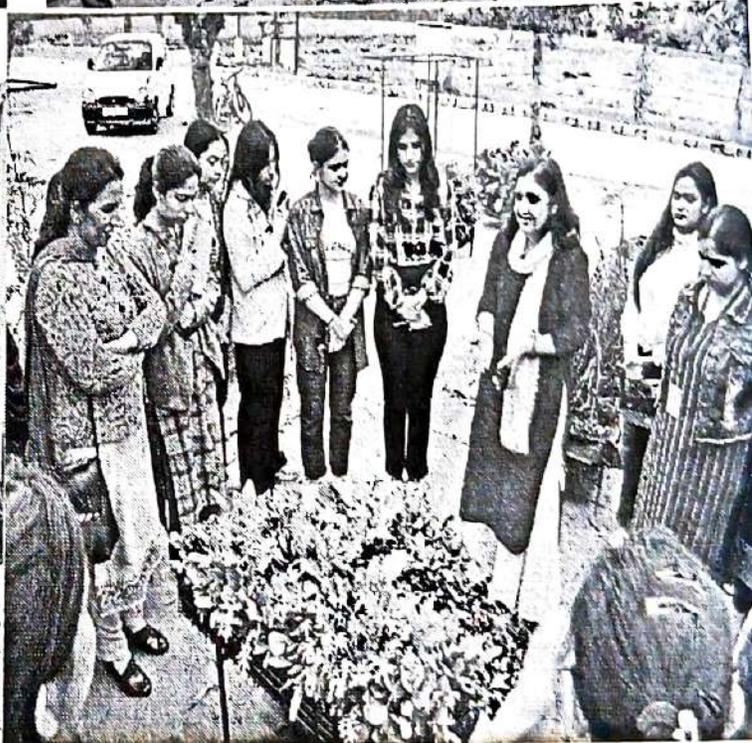

varieties of potato through plant breeding, PTC, their cultivation and development. She also discussed about storage of first copy of potato seeds through cryopreservation at CPRI, Shimla. Second copy of potato seed is stored in CPRS, Jalandhar.

At the end a field visit was organised which was coordinated by Dr. Dr. Sugani Devi (Scientist) CPRS, Jalandhar. She shows us the process of aeroponics, hydroponics and tray cultivation.

It was a knowledgeable experience for students as they learn about the latest technologies, best practices, and research findings related to potato farming, processing and marketing. They also understand about the importance of value addition in processing of potatoes. Principal Prof. (Dr.) Atima Sharma Dwivedi appreciated the efforts of faculty of botany department for organising such visits for the holistic development of students.
