SYLLABUS**

**Of
Diploma in GERIATRIC CARE (Old Age Care and Nutrition)**

(Semester: I- II)

(Under Credit Based Continuous Evaluation Grading System)

Session: 2022-23

The Heritage Institution

**KANYA MAHA VIDYALAYA JALANDHAR
(Autonomous)**

PROGRAMME SPECIFIC OUTCOMES OF DIPLOMA IN GERIATRIC CARE (Old Age Care and Nutrition)

PSO (1) - To gain knowledge about the various aspects of role and duties of geriatric care assistant.

PSO (2) - To develop knowledge about the importance of special care of elderly.

PSO (3) - To give practical knowledge about Nutrition and ageing.

PSO (4) - To develop awareness regarding government services and programmes.

PSO (5) - To gain knowledge about Nutrition according to various medical conditions.

PSO (6)- To enable them to gain practical skills of Geriatric care assistant.

KANYA MAHA VIDYALAYA, JALANDHAR (AUTONOMOUS)

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I
Session: 2022-23
Foundation of Geriatric Care Assistance (Theory)
Course Code: DGCL-1281

Course Outcomes:

Upon completion of this course students will be able:

- 1) To understand Role, Responsibility, Professional behavior of Geriatric care assistant.
- 2) To understand communication, interpersonal relationship and therapeutic relations with patients.
- 3) To understand the Basic geriatric care
- 4) To understand how to take care of a geriatric patient.
- 5) To understand prevention and control of infection.

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I

Session: 2022-23

Foundation of Geriatric Care Assistance (Theory)

Course Code: DGCL-1281

L-T-P

4-0-0

Max. Marks:100

Theory:80

CA:20

Instruction for the paper setter:

- Eight questions of equal marks are to be set, two in each of the four Sections (A-D). Questions of Sections A- D should be set from Units I-IV of the syllabus respectively. Questions may be subdivided into parts (not exceeding four).
- Candidates are required to attempt five questions, selecting at least one question from each section.
- The fifth question may be attempted from any Section.
- Each question carries 16 marks.

Unit -I

Basics concepts for Geriatric Care Assistants (GCA)

- Role, responsibilities, Ethics and professional behaviour of Geriatric Care Assistant.
- Overview of the Healthcare and Hospital systems
- Communication, Interpersonal skills and Therapeutic Relationships.
- Basic Life Support (BLS) measures & first aid in the event of emergencies

Unit -II

Basic Geriatric Care

- Preparation of facilities & Environmental modification.
- Patient Positions
- Transferring Geriatric patients
- Describe methods to measure vital parameters like pulse, BP, Temperature, Respiration, Height and Weight of patient.

Unit -III

Care of Geriatric patient

- Role of the Geriatric Care Assistant in various procedures
- Needs of the Geriatric patient related to Medications
- Handling of samples and linen
- Feeding the Geriatric patient
- Elimination Procedures in Geriatric patient

Unit -IV

Prevention and control of Infections

- Infection and Diseases
- Universal Safe Precautions and use of Personal Protective Equipment (PPE) at work place
- Healthcare Associated Infections

- Bio-medical waste Management (BMW)

REFERENCE BOOKS

4. Biomedical Waste Disposal by Anantpreet Singh and Sukhjit Kaur, Jaypee Publishers, 2012

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I

Session: 2022-23

Special Needs of Elderly (Theory)

Course Code: DGCL-1282

Course Outcomes:

Upon completion of this course students will be able:

- 1) To understand the hygienic conditions of elderly including bathing, dressing and grooming.
- 2) To understand the importance of oral care, hair care, skin care, foot care, nail care etc.
- 3) To understand the importance of exercise for geriatric patients.
- 4) To understand the management of a Bedridden patient or patient with disabilities.
- 5) To understand legal issues related to elderly.

- Candidates are required to attempt five questions, selecting at least one question from each section.
- The fifth question may be attempted from any Section.
- Each question carries 16 marks.

Unit: I

Hygienic Needs of Elderly

- General Hygiene and Grooming
- Principles while dressing and undressing
- Bathing guidelines for elderly.

Unit-II

Hygienic Need of the Geriatric patient

- Oral Care
- Hair care
- Eye and Ear care
- Skin, nail and foot care for elderly.

Unit-III

Environmental Manoeuvres and Assistive devices

- Safety and Environmental modifications
- Role of Exercise
- Use of assistive devices for elderly.

Unit- IV

Advance Geriatric Care

- Management of Bedridden patient

- Management of Disabilities
- Mental Health of Elderly
- Legal issues related to elderly
- Wellbeing of the care providers

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I
Session: 2022-23
Geriatric Nutrition (Th.)
Course Code: DGCL-1283

Course Outcomes:

Upon completion of this course students will be able:

- 1) To understand the basic knowledge of various macronutrients such as Carbohydrates, Fats, Proteins.
- 2) To understand the basic knowledge of various micronutrients such as vitamin and minerals. 3) To understand the basic concept of balanced diet, food groups.
- 4) To understand the nutritional requirements according to physiological condition of elderly.
- 5) To understand how to plan diet plan for elderly.
- 6) To understand the method to determine various health parameters of elderly.

- Candidates are required to attempt five questions, selecting at least one question from each section.
- The fifth question may be attempted from any Section.
- Each question carry 16 marks.

Contents:

Unit- I

- Introduction to nutrition : Nutrients and concept of Undernutrition, overnutrition ,obesity.
- **Carbohydrates** - Composition, classification, functions, food sources, requirement, deficiencies.
- **Fats and Oils**- Composition, Classification, Saturated, Unsaturated fatty acids, food sources, functions, requirement and deficiencies.
- **Protein** - Composition, Classification, Essential and Non- essential amino acids, food Sources, functions, deficiencies.

Unit-II

- Vitamin- Classification, unit of measurements, sources, requirements ,functions ,Deficiency and Toxicities of following vitamins.
- Fat Soluble vitamins -A, D, E and K.
- Water Soluble vitamins- C, B1-B2, B3, B6, B12 and Folic acid.
- Mineral- Functions, Sources, requirement and deficiency/excess of following minerals : calcium, iron, iodine, fluorine, Sodium, Potassium, Phosphorus, and Magnesium.

Unit -III

- Balanced diet: Concept of Balanced Diet, Food Groups, Exchange List.
- Definition and Objectives of RDA, RDA for different age groups. (NIN). Calorie consumption units in planning meals for a family.

Unit -IV

- Physiological changes during old age and meeting their nutritional requirements.
- Dietary recommendations for elderly.

- The fifth question may be attempted from any Section.
- Each question carry 16 marks.

Contents:

Unit-I

Introduction to aging

- Introduction to Physiology of Aging and ageing process.
- Physical, physiological and emotional changes during ageing process.
- Nutrition and Weight disorders: underweight, malnutrition and Obesity
- Nutrition and Metabolic syndrome

Unit-II

- Nutrition and Osteoporosis , Osteoarthritis, fractures, falls and injuries.
- Nutrition and Anaemia, gastroenteritis ,GERD and cancers of GIT.
- Nutrition and Dementia ; physiology of Parkinson's disease ,diagnosis, therapy .
- Nutritional care in dementia, artificial feeding and bedsores
- Nutrition and Parkinson's .

Unit-III

- Nutrition and Cardiovascular Disease
- Nutrition and Respiratory problems – COPD, Pneumonia, tuberculosis and lung cancer.

Unit-IV

- Nutrition and Ethics at the end of life
- Food , medicines and nutraceuticals interactions.
- Health promotion for the elderly
- Documenting the dietetic care for the elderly

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I

Session: 2022-23

Nutrition and Ageing (Pr.)

Course Code: DGCP-1285

Course Outcomes:

1. To develop therapeutic diets according to special requirements of nutrients.
2. To calculate the nutritive value of diets.
3. To study the nutritive value of diets given in different diseases.
4. To develop entrepreneurship skills in students.
5. To encourage the students to set up a diet clinic.

Note: - Paper will be set on the spot by the examiner. Prepare following therapeutic recipes for old age (Elderly)

- Prepare 5 recipes of liquid and soft diet.
- Prepare 5 high protein and high energy recipes.
- High Calcium Recipes.
- Prepare 5 high carbohydrate, moderate protein & low-fat recipes.
- Prepare 5 high fiber and low glycemic index recipes.
- Prepare 5 low sodium, low fat and high fiber diet.
- Plan and calculate nutritive value of diet for the following diseases. Typhoid, Diarrhea, Constipation, Jaundice, peptic ulcer, Diabetes, Hypertension, atherosclerosis, renal disease and obesity.

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-I
Session: 2022-23
Skills for geriatric Care Assistance-I (Pr.)
Course Code: DGCP-1286

Course Outcomes:

Upon completion of this course students will be able:

- 1) To understand the hygienic conditions of elderly including bathing, dressing and grooming.
- 2) To understand the importance of oral care, hair care, skin care, foot care, nail care etc.

Course Code: DGCP-1286

L-T-P

0-0-2

Max. Marks:50

Prac:40

CA:10

1. Skills related to infection control and prevention

- • Hand washing and use of PPE
- • Surgical asepsis
- • Transferring of sterile equipment to a sterile field
- • Assisting in gowning and gloving
- • Cleaning and disinfection of equipment and surface disinfection
- • BMW (from Generation to segregation to Disposal)

2. Skills related to bed making

- • Vacant Bed
- • Occupied bed making
- • Preparation of patient care unit

3. Positions and use of comfort devices

- • Patient positions
 - -Supine position
- • Fowler's
- • Use of comfort devices
 - -Foot Rest/Back Rest
 - -Air cushions and pressure relieving cushions -Restraints , Mattress

- • Back care (for pressure sore grade -1)

4. Skills related to personal Hygiene

- • Dressing and undressing (Procedure, Privacy, selection of appropriate clothes)
- • Bed Bath
- • Mouth Care including Care of denture
- • Eye , Nose and Ear Care
- • Scalp and Hair Care, Nail Care
- • Foot care (Diabetes/Peripheral vascular disease)

5. Measurement of Vital signs

- • Measurement of Vitals (TPR and BP)
- • Measurement of weight and Height

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-II

Session: 2022-23

Health services and programs for older Persons (Th.)

Course Code: DGCL-2281

Course outcomes:

Upon completion of this course students will be able:

- 1) To understand the role of Government and NGOs for elderly.
- 2) To understand the role of social support, elderly clubs etc for elderly
- 3) To understand the various agencies working for the elderly people.
- 4) To understand the importance of health promotion and disease education for elderly. 5) To understand the diagnosis and treatment of serious health issues in secondary and tertiary hospitals. 6) To understand the rehabilitative and mental health services for elderly.

CA:20**

Instruction for the paper setter:

- Eight questions of equal marks are to be set, two in each of the four Sections (A-D). Questions of Sections A- D should be set from Units I-IV of the syllabus respectively. Questions may be subdivided into parts (not exceeding four).
- Candidates are required to attempt five questions, selecting at least one question from each section.
- The fifth question may be attempted from any Section.
- Each question carry 16 marks.

Contents:

Unit-I

- Implementation of National policy and national health policy for older persons.
- Ageing and society
- Role of governmental organizations and NGOs.
- Agencies working for elderly.
- Social Support and social networking, self-help groups, elderly clubs.
- Welfare measures and provisions for the older persons.

Unit -II

Health promotion and Disease Education

- Health Education
- Screening of general health
- Screening for cancer of uterine cervix
- Specific health promotion programs

Unit- III

- Early Diagnosis and treatment of day-to-day ill health in PHC and clinics
- Health Insurance
- Diagnosis and treatment of serious ill health in secondary and tertiary care hospitals.
- Safety considerations, prevention of risks and fall injuries.

Unit-IV

- Rehabilitative: Physiotherapy, restorative surgery, prosthesis and occupational therapy.
- Mental health services: Counselling services for retirement, drug and substance abuse, ambulatory treatment for mental changes.

COMMUNICATION SKILLS IN ENGLISH

Course Code: BJMM/BFDM/BHSM/BCAM/BITM/

**BBTM/BACM/BOMM/BOPM/BVRM/BVMM/BVAM/BVTM/BVNM/BVBM/BVPM/
BVAI/BVHM/DGCM-2102**

COURSE OUTCOMES

At the end of this course, the students will develop the following skills:

CO 1: Enhancement of listening skills with the help of listening exercises based on conversation, news and TV reports

CO 2: Improvement of speaking skills enabling them to converse in a specific situation

CO 3: Acquisition of knowledge of phonetics which will help them in learning about correct pronunciation as well as effective speaking

CO 4: The capability to present themselves well in a job interview

CO 5: The ability of Note-Taking to be able to distinguish the main points from the supporting details and the irrelevant information from the relevant one

CO 6: Speaking skills of the students enabling them to take active part in group discussion and present their own ideas

CO 7: The capability of narrating events and incidents in a logical sequence

Time: 3 hours (Theory)
3 hours (Practical)

Max. Marks: 50
Theory: 25
Practical: 15
Continuous Assessment: 10

Instructions for the paper setters and distribution of marks:

The question paper will consist of four sections and distribution of marks will be as under:

Section-A: Two questions of theoretical nature will be set from Unit I of the syllabus and the candidates will have to attempt one carrying 5 marks.

Section-B: Two questions will be set from Unit II of the syllabus. Candidates will have to attempt one carrying 5 marks.

Section-C: Two questions will be set from Unit III of the syllabus. Candidates will have to attempt one carrying 5 marks.

Section-D: Two questions will be set from Unit IV of the syllabus. Candidates will have to attempt one carrying 5 marks.

Important Note:

The candidate will have to attempt five questions in all selecting one from each section of the question paper and the fifth question from any of the four sections.

(5 x 5 = 25)

Time: 3 hours (Theory)
3 hours (Practical)

Max. Marks: 50
Theory: 25
Practical: 15
Continuous Assessment: 10

Course Contents:

Unit I

Listening Skills: Barriers to listening; effective listening skills; feedback skills.
Activities: Listening exercises – Listening to conversation, News and TV reports

Unit II

Attending telephone calls; note taking and note making
Activities: Taking notes on a speech/lecture

Unit III

Speaking and Conversational Skills: Components of a meaningful and easy conversation, understanding the cue and making appropriate responses, forms of polite speech, asking and providing information on general topics

Activities: 1) Making conversation and taking turns
2) Oral description or explanation of a common object, situation or concept

Unit IV

The study of sounds of English, stress Situation based
Conversation in English Essentials of Spoken English
Activities: Giving Interviews

Recommended Books:

3 hours (Practical)**

Max. Marks: 50

Theory: 25

Practical: 15

Continuous Assessment: 10

PRACTICAL / ORAL TESTING

Time: 3 hours

Marks: 15

Course Contents:

1. Oral Presentation with/without audio visual aids
2. Group Discussion
3. Listening to any recorded or live material and asking oral questions for listening comprehension

Questions:

1. Oral Presentation will be of 5 to 7 minutes duration. (Topic can be given in advance or it can be of student's own choice). Use of audio-visual aids is desirable.
2. Group discussion comprising 8 to 10 students on a familiar topic. Time for each group will be 15 to 20 minutes.

Diploma in Geriatric Care (Old Age Care and Nutrition) Semester-II

Session: 2022-23

Applied Anatomy and Physiology (Th.)

Course Code: DGCL-2283

Course Outcomes:

Upon Completion of this Course the student should be able to:

CO1. To develop the knowledge of cell structure and functions of inclusion bodies.

CO2. To understand the elementary knowledge of structure and functions of cardiovascular system.

CO3. To develop the knowledge of different types of endocrine glands and its functions.

CO4. To develop the knowledge about digestive system and its structure, function, digestion and absorption of carbohydrates, proteins and fats.

CO5. To develop the knowledge of structure and function of urinary system.

CO6. To develop the knowledge of respiratory system and reproductive system.

Instruction for the paper setter:

- Eight questions of equal marks are to be set, two in each of the four Sections (A-D). Questions of Sections A- D should be set from Units I-IV of the syllabus respectively. Questions may be subdivided into parts (not exceeding four).
 - Candidates are required to attempt five questions, selecting at least one question from each section.
 - The fifth question may be attempted from any Section.
 - Each question carry 16 marks.
- Contents:

UNIT-I

1. Review of cell structure and functions of inclusion bodies.
2. Physiology of lymphatic system
Functions of lymphatic system: lymph nodes, vessels, spleen and thymus.
3. Cardio Vascular System:
Basic properties of the heart, cardiac output, blood pressure and factors affecting it and hypertension.

UNIT-II

4. Physiology of Kidneys:
Mechanism of urine formation and the role of the kidneys in water and electrolyte balance.
5. Physiology of nervous system
Structure and function of brain and spinal cord.
6. Physiology of skeletal system

UNIT –III

6. Physiology of respiratory system
Knowledge of structure and function of respiratory organs.
7. Physiology of the digestive system:
Secretory and digestive function of the salivary glands, the stomach, the pancreas, the liver and intestine. Mechanism of absorption of carbohydrates, proteins and fats.
8. Physiology of Muscular system

UNIT -IV

9. Physiology of endocrine glands:
Functions of the Thyroid, parathyroid, adrenal cortex, adrenal medulla, pancreas, pituitary glands and different syndromes resulting from modules, hypo or hyperactuchy.
10. Physiology of reproductive system
Knowledge of structure and function of male and female reproductive organs. Menstrual cycle.

CONTENT

Unit -I

Adolescence, Puberty and related changes Problems of adolescence

- Physical ☐
- sexual
- social
- emotional
- Role of parents and teachers in helping them.

Unit -II

Adulthood

1. Young adulthood
 - a) Developmental tasks of adulthood
 - b) Parenthood and other roles in society
 - c).Parenting techniques

Unit -III

2.Middle adulthood Midlife changes in both sexes

- 3.Late adulthood
 - a) Grand parenting

Unit -IV

Old age

- a) Retirement – a change in status.
- B). Physical and psycho-social aspects of aging.
