Certificate Course in

Native App Development Using Kotlin Android

Session 2022-23

Course Code	Course Title	Credit		Duration	Marks		Total Marks	Examination Time (in Hours)
		L-T-P	Total		L	P		
CNAM-1111	Native App Development Using Kotlin Android	1-0-1	2	45 Hours (in 45 Working Days)	10	40	50	1+3

Prerequisites / Eligibility:

- Must have passed 10+2 in any stream with 50% marks and having knowledge of OOPs and Java.

Examination Pattern

- A) 10 marks for Multiple Choice Questions (10) each of 1 mark.
B) 40 marks for Practical/App Development.

Certificate Course

Session 2022-23

Course Title: Native App Development Using Kotlin Android

Course Code: CNAM-1111

L-T-P

1-0-1

Duration: 45 Hours (in 45 Working Days)

Credits: 2 Marks: 50

Course Outcome:

After passing the course the student will be able to:

CO1: Comprehend various UI Design and Layout of Activities in android application

CO2: Comprehend Activity and Fragment Lifecycle of android application

CO2: Manage linked data in the form of shared preferences and database

CO3: Apply knowledge to develop Android Application

Prerequisites / Eligibility:

- Must have passed 10+2 in any stream with 50% marks and having knowledge of OOPs and Java.

Examination Pattern

A) 10 marks for Multiple Choice Questions (10) each of 1 mark.

B) 40 marks for Practical/App Development.

Course Content

1. Basics

- a. Android Studio and development environment setup.
- b. Basics of Kotlin
- c. Android Application Structure
- d. Emulator installation
- e. Running your first android app

2. Basic UI Design

- a. Layouts - Linear, Relative, and constraint
- b. Ui widgets

- c. Dimensions and Graphic Elements
- d. Dialogs (Inbuilt and custom)
- e. Snackbar and Toasts

3. Basic Building Blocks

- a. Introduction To activities, services, intents, and broadcast receivers.
- b. Activity and fragment life cycle
- c. Adding Splash Screen
- d. Adding Intents and passing values through intents.
- e. Adding validations in layout and naming Conventions

4. Content Providers

- a. Saving and getting data with shared Preferences
- b. Create, read, update and delete operations with room database

5. Additional Concepts

- a. View Binding
- b. Nav Controller
- c. Recycler view and list fragment
- d. Working with WebView
- e. Permissions in android
- f. Fetch and save data to/from gallery and camera
