He was of the view that micro level study is required for the completion of project. There must be a focus on theoretical perspective, constitutional provisions and theories of women empowerment along with social structure, family and community power structure of India. There is a need to identify the factors of political participation since 1952 as well as provisions of 73rd and 74th amendments of the constitution. Methodology was primarily focused upon, which is as follows:</p> <ol style="list-style-type: none"> 1. Sample from all the nine Assembly constituencies to be framed systematically in District Jalandhar. 2. The overall sample will be 360 respondents (male-female from all social categories).

					<p>3. From each Assembly constituency, forty respondents will be chosen by selecting four polling stations.</p> <p>4. Ten respondents will be selected from one polling station.</p> <p>Questionnaire will be prepared keeping in view the socio-economic profile of the respondents i.e. the caste, religion, locality, income, property, education, family size, house, literacy rate and marital status of the universe under study. Reasons of low participation of women in political activities will be identified. The overall discussion was fruitful and suggestions of the subject expert will be followed in letter and spirit</p>
